

Go Sisters! is a big programme that we also launched in 2001 in Lusaka, Zambia. We implement this programme under the Girls Empowerment through Sport concept. It's meant to allow girls to play, learn, exercise leadership roles, develop, discuss, and have that space which is usually taken away from them.

The programme is run by girls for girls with girls. They also try to incorporate boys so as a way of raising a generation that will appreciate and respect each other.
